SUMMARY

I am a full stack, test-driven developer who specializes in problem solving and loves an exciting challenge. As a television producer, I turned the broadcasting industry standard on its head with unforgettable and revelatory marketing campaigns.

I transitioned from TV production to software development because I have a lifelong passion for programming and a strong desire to continue learning languages and frameworks. I am a firm believer in agile team collaboration as a powerful tool for meeting client needs every step of the way.

PROJECTS

ZELDA'S LITTLE SHOP

A Legends of Zelda-themed e-commerce experience replete with user authentication, authorization & shopping cart functionality.

CLONEY ISLAND TRAVEL

A spin-off site based on Sygic Travel emphasizing external API consumption with Google Maps, Google Places and Twilio.
